7.3 Awareness

CCW ensures that persons working under the organization's control are aware of:

- a) the quality policy;
- b) relevant quality objectives;
- c) their contribution to the effectiveness of the quality management system, including the benefits of improved performance;
- d) the implications of not conforming with the quality management system requirements.

7.4 Communication

CCW determines the internal and external communications relevant to the Quality Management System, including:

- a) On what to communicate
- b) When to communicate
- c) With whom to communicate
- d) How to communicate
- e) Who Communicates?

Purpose of the Internal/External communication is for seeking the consent of relevant interested parties, conveying to relevant interested parties, accurate, and timely information, consistent with organization's mission, vision strategy and policy.

Internal and external communication is established at CCW as per **Quality Management Procedure xxx** at all levels and stages of the various processes with respect to established Quality Management System. It is done

by communication tools such as Email, written official letter/notice, Inter office Memo, ICT Tech, Notice board and one-to-one communication through intercom/phone.

Organization monitors the implementation of its communicational efforts where-in analyzes and improves the communicational plan based on monitoring the results of Documented Information that are retained.

7.5 Documented information

7.5.1 General

CCW quality management system includes:

- Statements of Scope of Quality Management System. Quality Policy and Quality Objectives
- Quality Management Apex Manual
- Quality Management System Procedures
- Work Instructions /SOPs
- Documented information (DI) relating to ensuring effective planning, operation and control of the education processes- Academic calendar, access to records, core curriculum, course catalogues, grades, code of conduct and code of ethics etc.

7.5.2 Creating and updating

When creating and updating documented information, CCW ensures appropriate:

- a) identification and description (e.g. a title, date, author, or reference number);

<i>Rev.00</i>	Reviewed By	
<i>Dt.01.01.2020</i>	Approved By	

CAUVERY COLLEGE FOR WOMEN

- b) format (e.g. language, software version, graphics) and media (e.g. paper, electronic);
- c) review and approval for suitability and adequacy.

7.5.3 Control of documented information

7.5.3.1 CCW ensures that documented information required by the quality management system and by this International Standard:

- a) it is available and suitable for use, where and when it is needed;
- b) it is adequately protected (e.g. from loss of confidentiality, improper use, or loss of integrity).

7.5.3.2 For the control of documented information,

A documented Procedure has been established to define the controls needed to:

- Approve documents for adequacy, prior to issue.
- Review and update as necessary and re-approve documents.
- Ensure that changes and the current revision status of documents are identified.
- Ensure that relevant versions of applicable documents are available at points of use.
- Ensure that documents remain legible and readily identifiable.
- Ensure that documents of external origin, determined by the organization necessary for planning and operation of the Quality Management System, are identified and their distribution controlled and prevent the unintended use of obsolete documents, and to apply suitable identification to them if they are retained for any purpose.

8.0 OPERATION

8.1 Operational planning and control

CCW implements and controls the processes (see 4.4) needed to meet the requirements for the provision of Educational Products and Services and to implement the actions determined in Clause 6.1

- The processes needed for ensuring UG / PG/PhD courses for students at CCW are standardized as per documented procedure.
- Documented procedure takes into consideration quality management system requirements in addition to affiliated University regulations.
- ***Documented Information are maintained to provide evidence that the Educational processes are implemented and teaching-learning service meets the quality requirements.***
- CCW plans resources specific to student's academic programs and initiates action that cater to the prevalent regulations of University at any point of time.
- CCW plans the Design, Development and expected outcomes of the educational products and Services viz. ~~Learning outcomes~~, appropriate and accessible teaching methods and learning environments, defining criteria for learning assessments, defining and conducting improvement methods and providing support services.

CCW controls planned changes and review the consequences of unintended changes, taking action to mitigate any adverse effects, as necessary.

CCW ensures that outsourced processes are controlled (see 8.4).

8.2 Requirements for products and services

8.2.1 Customer communication

CCW establishes communication with learner prior to the delivery of the educational products and services being provided by

- a) providing information relating to teaching learning process;
- b) handling enquiries,
- c) obtaining customer feedback and complaints;
- d) handling or controlling customer property;
- e) establishing specific requirements for contingency actions, when relevant.

8.2.2 Determining the requirements for products and services

When determining the requirements for the products and services that are offered to learners and CCW ensures that:

- a) the requirements for the educational products and services are defined, including:
 - i) those considered necessary by CCW due to its policy and strategic plan
 - ii) those resulting from needs analysis that is performed to determine requirements of current and potential future learners and other beneficiaries in particular those with specific needs,

- iii) those resulting from national/international demands & developments
 - iv) those resulting from labor market and research
 - v) Eligibility criteria stipulated by the affiliated University regarding admission is followed
 - vi) Syllabus provided by affiliated University is used to perform the teaching learning service.
 - vii) Assignments and internal tests are used to evaluate the progress of the learner.
 - viii) The progress of the learner is intimated to the parents;
- b) the organization can meet the claims for the products and services it offers

8.2.3 Review of the requirements for products and services

8.2.3.1 CCW ensures that it has the ability to meet the requirements for products and services to be offered to customers.

The organization shall conduct a review before starting the teaching learning process

- a) Requirements specified by the customer,
- b) Requirements not stated by the customer, but necessary for the specified or intended use,
- c) Requirements specified by the organization
- d) Statutory and regulatory requirements applicable to the products and services; as specified by Affiliating University.

<i>Iss.01</i>	Prepared By

8.2.3.2 CCW retains documented information,

- a) on the results of the review;**
- b) on any new requirements for the products and services.**

8.2.4 Changes to requirements for products and services

CCW ensures that relevant documented information is amended, and that relevant persons are made aware of the changed requirements, when the requirements for products and services are changed.

8.3 Design and development of products and services

8.3.1 General

CCW, being granted Autonomous status implements and maintains a design and development process that is appropriate to ensure subsequent provision of educational product and services by preparation of design of curricular and syllabi, lecture notes by the faculty and internal evaluation process.

8.3.2 Design and development planning

In determining the stages and controls for design and development, CCW considers

- a) the requirement defined in 8.2
- b) The nature, duration and complexity of the design and development activities;
- c) The required process stages, including applicable design and development reviews;
- d) The required design and development verification and validation activities;

- e) The responsibilities and authorities involved in the design and development process;
- f) The internal and external resource needs for the design and development of products and services;
- g) The need to control interfaces between persons involved in the design and development process;
- h) The need for involvement of customers and users in the design and development process;
- i) The requirements for subsequent provision of products and services;
- j) The level of control expected for the design and development process by customers and other relevant interested parties;
- k) the evidence based approach
- l) The documented information required to demonstrate that design and development requirements have been met is maintained.
- m) the extent to which learners require individual learning pathways based on their skills, interests and aptitudes
- n) the need for reusability, accessibility, interchangeability and durability in course authoring, production and delivery tools.

8.3.3 Design and development inputs

CCW determines the requirements essential for the specific types of products and services to be designed and developed. CCW designs the syllabus by considering

- a) Functional and performance requirements
- b) Information derived from previous similar design and development activities

<i>Iss.01</i>	Prepared By

- c) Standards or codes of practice that CCW has committed to implement
- d) Previous year question papers, feedback by the customers and current out gone students
- e) requirements as input for designing and development
- f) Potential consequences of failure due to the nature of the educational products and services.

CCW retains documented information on design and development inputs

8.3.4 Design and development controls

CCW applies the control to design and develop the process to ensure that:

- a) The results to be achieved are defined;
- b) Reviews are conducted to evaluate the ability of the results of design and development to meet the requirements;
- c) Verification activities are conducted to ensure that the design and development outputs meet the input requirements;
- d) Validation activities are conducted to ensure that the resulting products and services meet the requirements for the specified application or intended use;
- e) Any necessary actions are taken on problems determined during the reviews, or verification and validation activities;

The controls applied to the design and development process further ensures that,

- a) The purpose and scope of the course / program is defined with a view to the learners' requirements for further study or work
- b) The pre-requisites (if any) are specified
- c) The characteristics of the learners are defined
- d) The requirements of further study /work are known
- e) The educational service meets the requirements of the purpose and scope taking into account the characteristics of the learners
- f) The characteristics of the Graduate profile are defined.
- g) Learning outcomes are consistent
 - i) the scope of the course/program
 - ii) Described in terms of the competence, the learners should acquire by completing the curriculum
 - iii) Include an indication of the level to which the competences will be achieved,
- iv) Are specific, measurable, achievable, relevant and time bound.
- h) Learning activities are
 - i) Suitable to the method of educational delivery
 - ii) Appropriate for ensuring achievement of the learning outcomes.
 - iii) Specific, measurable, achievable, relevant and time-bound

- j) All resources that are necessary to successfully complete the learning activities are defined.
- k) Adequate opportunities are included in the learning design,
 - 1) For learners to take an active role in creating the learning process
 - 2) For formative assessment and feed-back.

The controls applied to design and development process of Summative assessment ensuring that,

- 1) A clear link demonstrated between the assessment design and the learning outcome is intended to assess and wherever appropriate the learning activities are based on.
- 2) Activities are conducted taking into account the principles of transparency, accessibility, respect to the learner, and fairness especially with respect to grading.
- 3) Grading system is defined and validated

CCW retains the documented information of these activities.

8.3.5 Design and development outputs

CCW ensures that design and development outputs:

- a) meet the input requirements;
- b) are adequate for the subsequent processes for the provision of products and services;
- c) include or reference monitoring and measuring requirements, as appropriate, and acceptance criteria;

- d) specify the characteristics of the products and services that are essential for their intended purpose and their safe and proper provision.

CCW retains documented information on design and development outputs.

8.3.6 Design and development changes

CCW identifies, reviews and controls changes made during, or subsequent to, the design and development of products and services, to the extent necessary to ensure that there is no adverse impact on conformity to requirements.

CCW retains documented information on:

- a) Design and development changes;***
- b) The results of reviews***
- c) The authorization of the changes;***
- d) The actions taken to prevent adverse impacts.***

8.4 Control of externally provided processes, products and services

8.4.1 General

CCW ensures that externally provided products and services conform to requirements. CCW determines and applies criteria for the evaluation, selection, monitoring of performance, and re-evaluation of external providers, based on their ability to provide products and services in accordance with requirements. ***CCW retain documented information of these activities and any necessary actions arising from the evaluations***

8.4.2 Type and extent of control

CCW ensures that externally provided products and services, like Materials, Laboratory equipment's & Instruments, Spares & consumables required for Educational Processes and maintaining infrastructure, do not adversely affect the organization's ability to consistently deliver conforming products and services to its learners and other beneficiaries.

CCW ensures that the externally provided processes remain within the control of its QMS.

Define both the controls that it intends to apply to an external provider and those it intends to apply to the resulting output

CCW takes into consideration that

- 1) The potential impact of the externally provided products and services on its ability to consistently meet customer and applicable statutory and regulatory requirements;
- 2) The effectiveness of the controls applied by the external provider;

CCW determines the verification, or other activities, necessary to ensure that the externally provided products and services meet requirements and the process is documented

8.4.3 Information for external providers

CCW communicates to external providers its requirements for

- a) the products and services to be provided in the form of purchase order with the required details
- b) the approval of
 - 1) Products and services.
 - 2) Methods, processes and equipment
 - 3) Release of products and services
- c) Competence including any required qualifications of the persons
- d) The external provider's interaction with CCW
- e) Control and monitoring of the external provider's performance to be applied by CCW.
- f) Verification /validation activities that CCW or its learners and other beneficiaries intend to perform at the external provider's premises.

8.5 Production and service provision

8.5.1 Control of production and service provision

CCW implements service provision as per the Affiliating University guidelines and

- a) The availability of documented information that defines:
 - 1) The characteristics of the services to be provided, or the activities to be performed;
 - 2) The results to be achieved;

- b) The availability and use of suitable monitoring and measuring resources;
- c) The implementation of monitoring and measurement activities at appropriate stages to verify that criteria for control of processes or outputs, and acceptance criteria for products and services, have been met;
- d) The use of suitable infrastructure and environment for the operation of processes;
- e) The appointment of competent persons, including any required qualification;
- f) the validation, and periodic revalidation, of the ability to achieve planned results of the processes for production and service provision, where the resulting output cannot be verified by subsequent monitoring or measurement;
- g) The implementation of actions to prevent human error;
- h) The implementation of release, delivery and post-delivery activities

Admission of Learners.

CCW ensures that before learners are admitted they are provided with,

- a) adequate information that takes into account the CCW's requirements and professional requirements, as well as CCW's commitment to the social responsibility.
- b) Adequate and clear information about,
 - 1) The intended learning outcomes, career perspectives educational approach.

- 2) The participation of learners, and other beneficiaries as appropriate, in their educational process.
- 3) The admission criteria and costs of the educational product or service.

Conditions for Admission

CCW establishes a process for the admission of learners, in addition to the requirements in 4.4.1.

- a) Establish admission criteria that conforms to
 - 1) Organizational requirements
 - 2) Requirements from the professional field,
 - 3) Requirements due to the content of the program and/or pedagogical approach.
- b) Ensures that admission criteria and processes are applied uniformly for all learners
- c) Be publicly available
- d) Ensures traceability of each admission decision

CCW ensures that

- i) admission criteria and processes are maintained as Documented Information***
- ii) Evidence of admission decisions are retained as Documented information.***

Delivery of educational products and services,

CCW establish processes for,

- a) Teaching,
- b) Facilitation of learning
- c) Administrative support of learning.

Summative assessment;

CCW ensures that,

- a) methods to detect plagiarism and other malpractices are in place and communicated to learners.
- b) Traceability of grades, such that an objective connection can be identified between learner work presented and the grade assigned.

Documented information of the assessment as evidence of the grades assigned retained and make the retention period of such documented information publicly available.

Recognition of assessed learning,

CCW ensures that after summative assessment,

- a) Learners are informed of the outcomes of the assessment activity and grade
- b) Learners are given an opportunity to appeal or ask for rectification of the outcomes of the assessment activity and grade
- c) Learners have full access to their work and its detailed assessment as well as opportunities for feedback
- d) Evidence of the outcomes and the assessment is issued to the learners as documented information

- e) Reasons for the decision on grading and final assessment are retained as documented information.

Documented information is retained and make the retention period of such documented information publicly available.

8.5.2 Identification and traceability

CCW shall ensure identification and Traceability with respect to,

- a) The progress of learners through the organization
- b) study and employment paths of those who graduate or complete a course or program of study, where applicable,
- c) output from the work of Staff in terms of
 - i) what was done
 - ii) when
 - iii) by whom.

CCW uses suitable means to identify outputs when it is necessary to ensure the conformity of products and services.

CCW identifies the status of outputs with respect to monitoring and measurement requirements throughout production and service provision.

CCW controls the unique identification of the outputs when traceability is a requirement, and retains the documented information necessary to enable traceability

8.7.2 CCW deals with nonconforming outputs in one or more of the following ways:

- a) correction;
- b) segregation, containment, return or suspension of provision of products and services;
- c) informing the customer;
- d) obtaining authorization for acceptance under concession.

Conformity to the requirements shall be verified when nonconforming outputs are corrected

CCW retains documented information that:

- a) describes the nonconformity;**
- b) describes the actions taken;**
- c) describes any concessions obtained;**
- d) identifies the authority deciding the action in respect of the nonconformity**

9.0 PERFORMANCE EVALUATION

9.1 Monitoring, measurement, analysis and evaluation

9.1.1 General

CCW determines:

- a) what needs to be monitored and measured;
- b) the methods for monitoring, measurement, analysis and evaluation needed to ensure valid results;
- c) the acceptance criteria to be used
- d) when the monitoring and measuring shall be performed;

- e) when the results from monitoring and measurement shall be analysed and evaluated.

CCW evaluates the performance and the effectiveness of the quality management system.

CCW determines the method for obtaining, monitoring and reviewing information on performance, targets against which performance will be measured.

Implements measures for, drop out rate, literacy rate, learner satisfaction, attendance/engagement rate of learners

Satisfaction of other beneficiaries' graduation rate, length of time for completion of programme, job placement rate, publication and research output of staff etc.

CCW retains appropriate documented information as evidence of the monitoring, measurement, analysis, evaluation and their results.

9.1.2 Satisfaction of Customer-Learners, Staff and other Beneficiaries.

CCW monitors customers' perceptions of the degree to which their needs and expectations have been fulfilled. CCW uses the following methods for obtaining, monitoring and reviewing this information.

- Feedback on subject during the semester
- Feedback on lab during the semester
- Class committee meeting every month
- Grievance redressal meeting once in a semester

10.0 IMPROVEMENT

10.1 Nonconformity and corrective action

When nonconformity occurs, including any arising from complaints, CCW:

- a) reacts to the nonconformity and, as applicable:
 - 1) take action to control and correct it;
 - 2) deal with the consequences;
- b) evaluates the need for action to eliminate the cause(s) of the nonconformity, in order that it does not recur or occur elsewhere, by:
 - 1) reviewing and analysing the nonconformity;
 - 2) determining the causes of the nonconformity;
 - 3) determining if similar nonconformities exist, or could potentially occur;
- c) implementing any action needed;
- d) reviewing the effectiveness of any corrective action taken;
- e) updating risks and opportunities determined during planning, if necessary;
- f) making changes to the quality management system, if necessary.

Corrective actions shall be appropriate to the effects of the nonconformities encountered.

CCW retains documented information as evidence of:

- a) **the nature of the nonconformities and any subsequent actions taken;**
- b) **the results of any corrective action.**

10.2 Continual improvement

The organization shall continually improve the suitability, adequacy and effectiveness of the Quality Management System.

CCW consider the results of analysis and evaluation, and the outputs from management review, to determine if there are needs or opportunities that shall be addressed as part of continual improvement

Opportunities for Improvements.

CCW determines and selects opportunities for improvement and implement any necessary actions to meet customer requirements and enhance customer satisfaction.

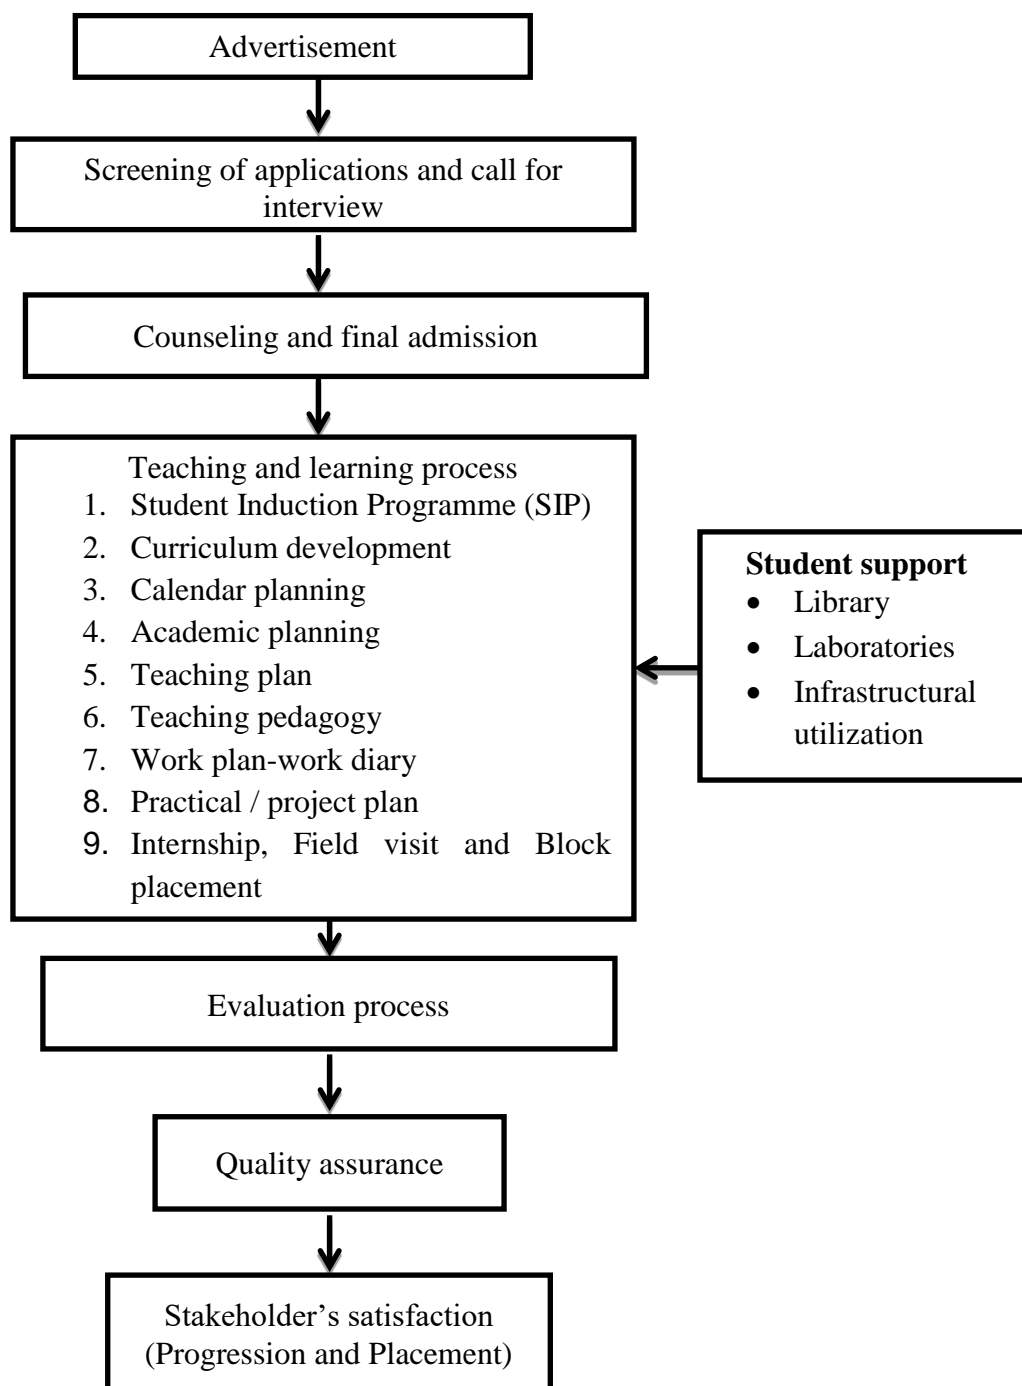

Which includes:

- a) Improving products and services to meet requirements as well as to address future needs and expectations;
- b) Correcting, preventing or reducing undesired effects;
- c) Improving the performance and effectiveness of the quality management system, by correction, corrective action, continual improvement, breakthrough change, innovation and re-organization.
