NAME OF THE RESOURCE PERSON: Dr. S. Kiruthika, Research Scientist, School of
Physics, Sastra Deemed University, Thanjavur.

DATE & VENUE: 29-07-2023 & KRT Hall

No. OF BENEFICIARIES: 114

On July 29, 2023, the Chemstar Club, in collaboration with the PG and Research Department of Chemistry, hosted an insightful session titled "Capacity Building Program on Fundamentals of Nanoscience." This session aimed to provide students with a deep understanding of the principles and applications of nanoscience. Dr. S. Kiruthika, a distinguished Research Scientist from the School of Physics at Sastra Deemed University, Thanjavur, served as the resource person. She shared valuable insights into summer internships and Ph.D. programs available at renowned institutions, along with discussing the fundamentals of nanoscience. Her presentation was interactive, featuring quiz questions to engage the audience and enhance learning. She elucidated the fundamentals of nanoscience and explored instrumentation techniques essential for research in this field. Moreover, She discussed the diverse applications of nanomaterials across various industries. The session concluded with appreciation for Dr. Kiruthika's valuable contributions and the opportunity for students to deepen their understanding of nanoscience. The Chemstar Club and the PG and Research Department of Chemistry extend their gratitude to all participants for their active engagement, making the event a success. 114 students were benefitted and session ended with vote of thanks.

The Chemstar Club, in collaboration with the PG and Research Department of Chemistry, hosted a capacity building program on August 17, 2023, at 10:00 am. The event focused on exploring parallels between main group and transition metal clusters. Dr. C. Arivazhagan, Assistant Professor from the Department of Chemistry at the National Institute of Technology, served as the resource person. During the session, he provided valuable insights to the students regarding CSIR fellowships and Ph.D. programs available in esteemed institutions. He delved into the isolobal analogy, as well as the types and classification of boranes. The session was highly interactive, with Dr. Arivazhagan engaging the students by discussing various questions related to the topic. A notable aspect of the event was the enthusiastic participation of 106 students, indicating the keen interest and engagement of the audience. The program proved to be a valuable opportunity for students to deepen their understanding of these complex concepts and explore potential academic and research avenues in the field of chemistry.

The PG and Research Department of Chemistry, along with the Chemstar Club, organized a capacity-building program on the nature of bonding in coordination complexes. The event took place on October 6, 2023, from 11:00 am to 12:00 noon in virtual mode. Dr. N. Navaneetha, Vice-Principal of the College of Science, Saifabad, Osmania University, Hyderabad, served as the resource person. During the session, Dr. Navaneetha explained crystal field theory and the splitting of complexes. The session was highly interactive, providing valuable insights to the 112 students who participated.

The PG and Research Department of Chemistry, Chemstar Club organized a capacity-building program on October 6, 2023, from 1:30 PM to 2:30 PM to commemorate Noble Week 2023. The session, facilitated by Dr. S. Vaideeswaran, Former Assistant Professor in Chemistry at the Department of Science and Humanities, Amirta College of Engineering and Technology, Nagercoil, focused on the theme of "Noble Works." He delved into various aspects during the session, emphasizing the significance of dry lab experiments, computational chemistry for precise calculations, and the pivotal role of theoretical chemistry in modern research. He concluded the session by providing insights into different software tools available for theoretical calculations, thereby equipping the participants with practical knowledge and resources. The session was highly interactive, fostering engagement and active participation among the attendees. 112 students took part in this enriching program, gaining valuable insights into the realm of chemistry and its diverse applications.

The Chemstar Club of the PG and Research Department of Chemistry, in collaboration with the CSIR Institute of Minerals and Materials Technology, Bhubaneswar, organized the International Conference on "Exploring New Horizons in Chemical Sciences- (ENHCS - 2024)." This conference served as a platform for discussing cutting-edge advancements in the field of chemical sciences. The event featured three enlightening sessions, each graced by an eminent resource person. In the first session, Dr. V. Tharmaraj, a Post-Doctoral Researcher at the Institute of Clinical Medicine, National Cheng Kung University Hospital, Taiwan, delivered a captivating lecture on the "Advancement in Optical Nanobiosensors for point-of-care testing of cardiovascular disease biomarkers." His expertise shed light on the innovative technologies revolutionizing the detection and monitoring of cardiovascular diseases. The second session welcomed Dr. Kamali Kesavan, a distinguished Scientist from the CSIR-Institute of Minerals and Materials Technology, Bhubaneswar. Her lecture titled "Introduction to Raman Spectroscopy" provided attendees with valuable insights into the principles and applications of this powerful analytical technique. Concluding the conference was the third session, featuring Dr. K. Sundaravel, an esteemed Assistant Professor from the Department of Chemistry at Bharathiar University, Coimbatore, Tamil Nadu. He delivered an insightful talk on the "Degradation of hydroxyaromatics biomimetic Non-heme Iron (II) Complexes," highlighting recent advancements in the field of biomimetic chemistry and its implications for environmental remediation. Overall, the conference attracted 151 participants who benefited from the wealth of knowledge shared by the esteemed speakers, furthering their understanding and appreciation of the diverse facets of chemical sciences.

Tea Break: 11.00AM - 11.10 AM

SESSION -I

TIME: 11.15 AM -12.15 PM

**"Advancement in Optical Nanobiosensors for
Point-of-care Testing of Cardiovascular Disease Biomarkers"**

Dr. V. Tharmaraj
Post-Doctoral Researcher
Institute of Clinical Medicine
National Cheng Kung University Hospital
Taiwan

SESSION -II

TIME: 12.15 PM - 1.15 PM

"Introduction to Raman Spectroscopy"

Dr. Kamali Kesavan
Scientist
CSIR - Institute of Minerals and Materials
Technology (IMMT), Bhubaneswar, Odisha

Lunch Break: 1.15PM - 2.00PM

SESSION -III

TIME: 2.00 PM - 3.15 PM
