## **REPORT**

In the technological era to meet the industry expectation the student community should fulfil some of the prerequisites. Apart from the academic skills they should get job readiness skills. To inculcate the awareness and to empower the student community the Internal Quality Assurance Cell (IQAC) and the PG & Research Department of Computer Science, Department of Computer Applications, Department of Information Technology and Aspire For Her jointly organized an online orientation session for Google Career Certificate Scholarship Program on 24.06.2022 at 11.00AM to 12.30PM through ZOOM Online Meeting. The objective of the orientation program is bridging the education gap between the academia to industry.

The Principal Dr.V.Sujatha welcomed the chief guest & gatherings. Dr.S.Jayabharathi, Assistant professor, PG & Research Department of Microbiology introduced Ms.Reena Ravi, Chief Operating Office, Ko-Create Consulting, Mentor & Consultant of Aspire For Her. The Resource person Ms.Neeraja Ganesh Mentor & Consultant of Aspire For Her was introduced by Ms.Reena Ravi.

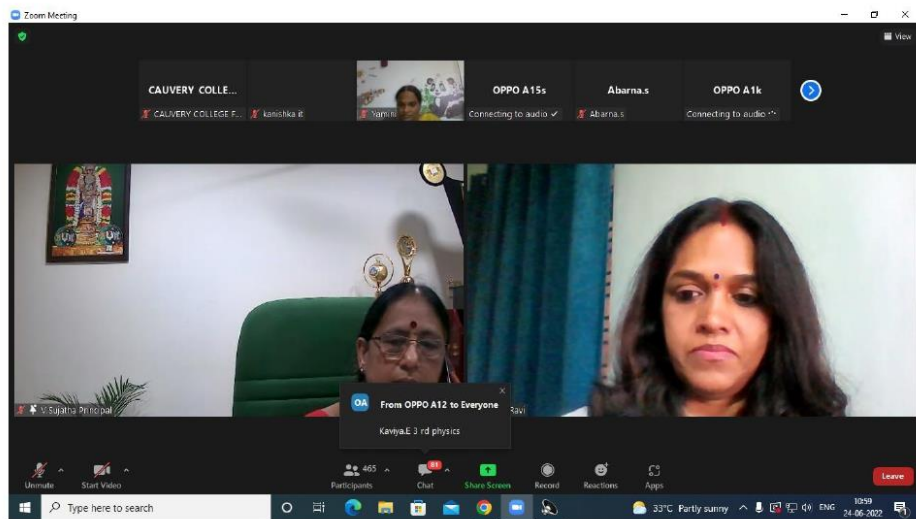

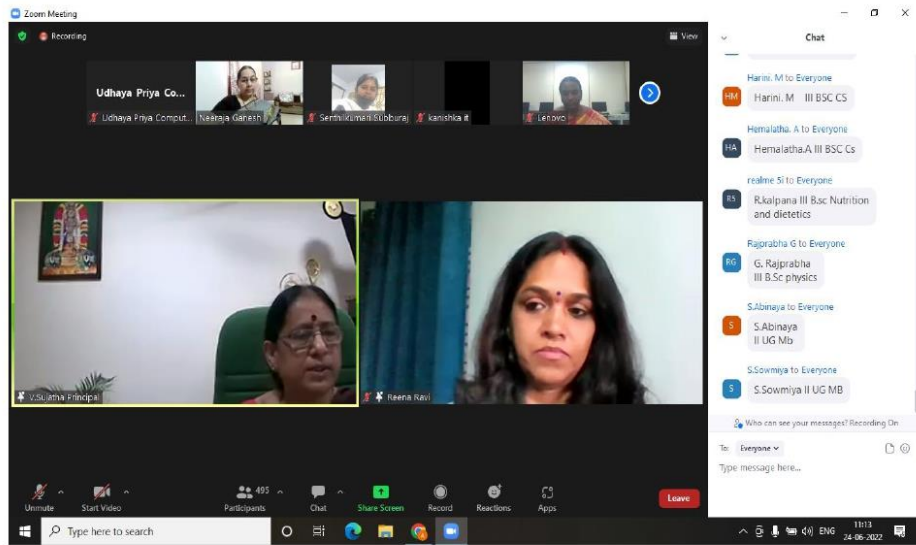

The Chief Guest Mrs. Neeraja Ganesh addressed the II and III year students on the intricacies of Google certification courses, employment and the need for employable skills to uplift them in the IT industry. She gave an overview of what kind of roles available in industry and how to develop additional skills to meet the industry expectation. She also explained about the flexible online training program to gain job-ready skills in high-growth, high-demand career fields such as IT Support, Project Management, Data Analytics and UX Design. She closed her address by explaining us how the development of technical abilities could help to bridge the gap between academia and industry. Followed by that Ms.Reena Ravi, announced about the greater employability opportunities under privileged beneficiaries. She demonstrated how to apply for the scholarship program and what are eligibility criteria to be met. She insisted the eligible candidates to apply for the Google certification scholarship.

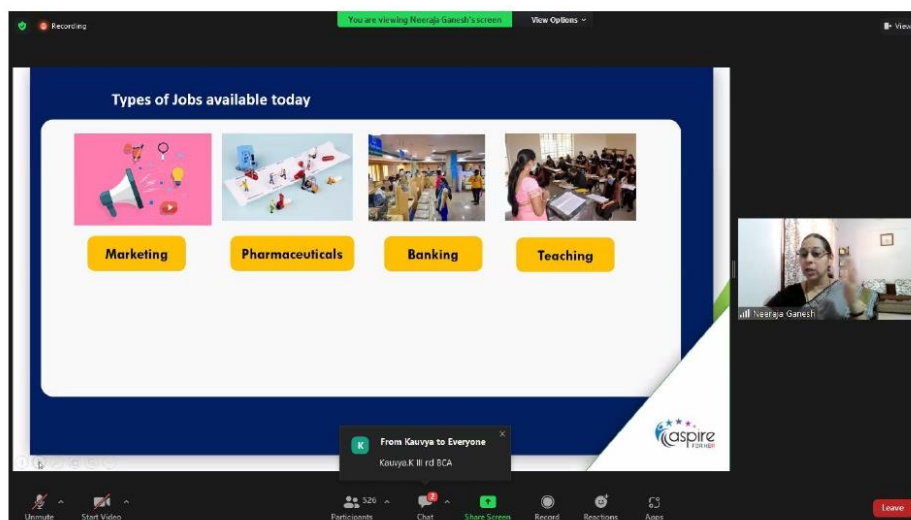

The session concluded with vote of thanks by Dr.R.Merlin Packiam, Associate Professor & Head, Department of Computer Applications, Cauvery College For Women(Autonomous) Trichy.

## REPORT

To create information rich society and to attract the attention of the learners the E-content development is considered as the powerful tool for the education. The Internal Quality Assurance Cell (IQAC) and the PG & Research Department of Computer Science, Department of Computer Applications and Department of Information Technology organized a three days Faculty Development Programme on “***E-Content Development using ICT Tools for MOOCs***” held from 13.06.2022 to 15.06.2022 for all the teaching faculty from various department of the college. Dr.A.Vimal Jerald, Assistant professor, Department of Computer Science, St.Joseph’s College acted as a resource person for the three days FDP and he demonstrated about five types of E-content authoring tools. The objective of the FDP on **E-Content Development using ICT Tools for MOOCs** is to create a platform for learning the tools and technologies required for creating digital learning resources and to get trained with these technologies. It also aims to equip the educator with the information and the abilities necessary to meet the need of modern learners and their learning preferences.

### **Day 1: 13.06.2022**

The FDP inaugural function commenced with a prayer song followed by Welcome address delivered by Dr.V.Sinthu Janita Prakash, Dean of Science & IQAC Co-ordinator, Professor & Head PG and Research Department of Computer Science. Dr.V.Sujatha, The Principal, Cauvery College for Women felicitated the gathering. The resource person was introduced by Dr.M.Parveen, Professor & Head, Department of Information Technology. In Day 1 program the resource person imparted the knowledge of fundamentals of E-content and explained the four quadrant Instructional design of MOOCs namely e-Tutorial, e-Content, Assignment, Discussion Forum. He demonstrated how to create a talking head video using ZOOM. He taught the basics of interactive Power Point presentations relevant to E-content.

### **Day 2: 14.06.2022**

The Day 2 started with a Hands-on Session at CS LAB. He trained and motivated all the participants to make an E-content using ZOOM and Power Point. The participants enthusiastically created their own E-content with a lot of innovations. Then he gave an idea of Screen casting software such as FreeCam and ScreenCast-o-Matic tools. Using these tools the participants designed and developed several E-contents. The resource person assigned a set of tasks to the participants to create their interactive video lectures and sent it to him for review. The participants enthusiastically tried various methods and presented it for review.

**Day 3 : 15.06.2022**

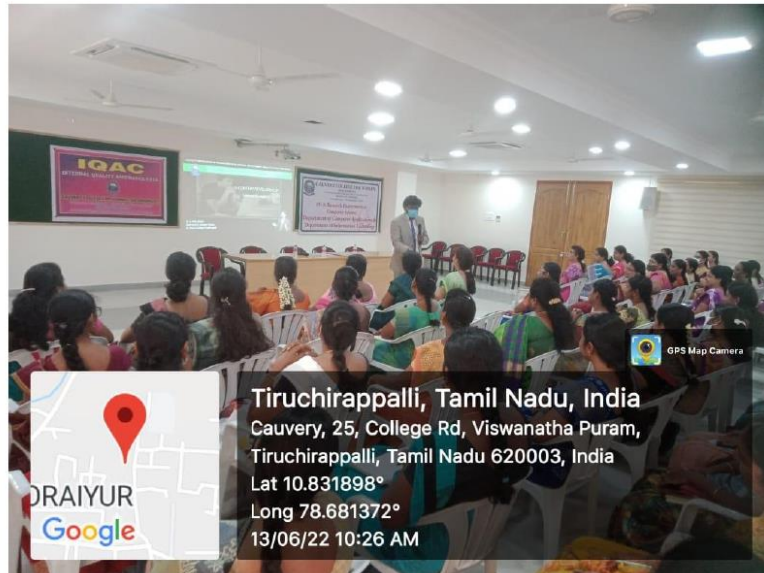

Day 3 focuses on creating You Tube Channel, Content Upload and GIF file generation. He introduced Open Broad Caster Software (OBS) for video recording, live streaming and also audio editing software. Best E-content development competition was conducted among the faculty members. Dr.S.Saranya Assistant professor, Department of Chemistry and Dr.M.Neela Associate Professor, Department of Business Administration are selected as a best E-Content Developer and the faculty who have participated in the competition is also recognized with the prizes. Participants showed their gratitude by giving feedback about the programme and concluded with Vote of thanks by Dr.R.Merlin Packiam, Associate Professor and Head Department of Computer Applications. The outcome of the FDP is to provide nuances of various tools and technologies and E-Content development thus attained.

## REPORT

In this age of information, the internet has made it easy for anyone to gain information whenever and wherever they need. To succeed in this digital world and to creating a knowledge-based society, the students know about the study trends. Based on this objective the **Department of Information Technology INNOVA CLUB** conducted a workshop on **“Exploratory Data Analysis Using Python”** on 26.07.2022 at 10.00 am to 12.00 am. **Dr.M.Sughasiny, Assistant Professor, PG & Research Department of Computer Science, Srimad Andavan Arts and Science College(Autonomous), Trichy** acts as the resource person.

Right from MNC's to start-ups, everyone depends on data to formulate improved strategies for the future of their companies. Exploratory data analysis popularly known as EDA is a process of performing some initial investigations on the dataset to discover the structure and the content of the given dataset. It is an unavoidable step in the entire journey of data analysis right from the business understanding part to the deployment of the models created. EDA is where we get the basic understanding of the data in hand which then helps us in the further process of Data Cleaning & Data Preparation. The resource person covers a wide range of topics under EDA starting from the basic data exploration (structure based) to the normalization and the standardization of the data. The resource person used Python programming language to perform the EDA steps. The speaker provides the hands on training on introducing the data set, importing the Python Libraries, Loading the Dataset in Python, Structured Based Data Exploration, Handling Duplicates, Handling Outliers, Handling Missing Values and data visualization. The students also took a sample data set and performed exploratory data analysis on it using the Python programming language using the Pandas DataFrame. However, this gives just a basic idea on how EDA is done they can definitely explore it to as much extent as they want and try performing the steps on bigger datasets as well.

## REPORT

Technology today is evolving at a rapid pace, enabling faster change and progress, causing an acceleration of the rate of change. To promote awareness among the students the Department of Information Technology, INNOVA CLUB organized a Webinar on **“Trending Technologies and Placement Opportunities”** conducted through google meet on 06.08.2022 at 10.00 am to 12.00 pm. **Ms.Akshaya Elangovan, Software Engineer, Viseton India Bangalore** acted as a **resource person**. UG Final year Information technology students take part in the webinar.

The resource person categorized the trending technology in four ways such as IT support, Data Analytics, Automation, and Design UX. She provided the hope to all kinds of students irrespective of their skills. Basically, there are many software industries which implements non-coding IT Jobs in the field of designing, analysis, project management, etc. She insisted the students to be aware of the trending software packages which are implemented in the industry. Based on their skills they can select their industry. Coding skill students can go for coding related jobs. The students who can have a good communication and best rapport with others they can go for IT support and client service. The one who can have the knowledge on designing they can choose the UX designer relevant role. The speaker insisted the students for choosing these roles what to learn and how to strengthen the knowledge on these recent technology relevant software, what are the roles and opportunities available for the IT supporting domains. The resource person raised the confidence level of the beneficiaries by promoting the applicability of the software industry needs irrespective of their skills.

## FULL STACK DEVELOPMENT

- What is full stack development ?
  - Development of both front end(client side) and back end(server side) portions of web application.
  - Work on the frontend, backend, database and debugging of web applications or websites
  - These professionals usually work with a product through its initial creation until its final launch

## REPORT

Technical skills are the specialized knowledge and expertise required to perform specific tasks and use specific tools and programs in real world situations. To empower our technical faculty, PG & Research Department of Computer Science, Department of Computer Applications & Department of Information Technology, Comphaven Club, Abacus Club & Innova Club organized a **"Skill Training Program On Trouble Shooting"** on 22.08.2022 at 10.00 am to 12.00 pm in NET LAB. Mr. N.Saravana Kumar System Administrator, Cauvery College for Women (Autonomous) acted as a trainer for this event. He has a rich experience in System maintenance, Network administrator and network maintenance

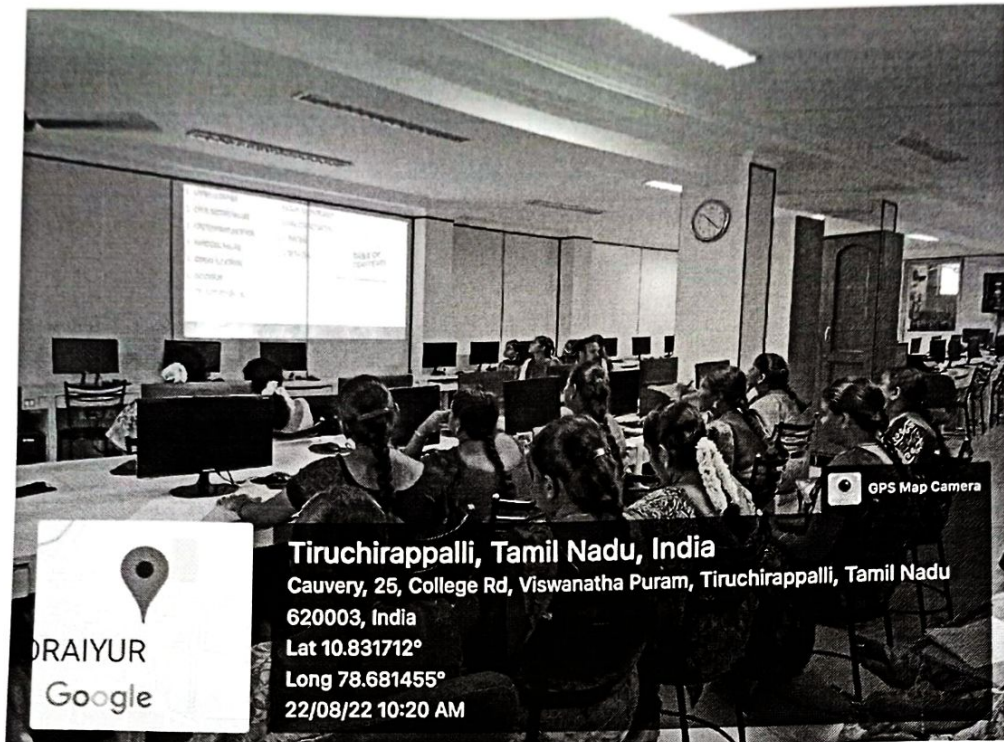

The resource person gave an idea about 12 basic skill required to solve the system related issues. He has mainly concentrated on the issues such as system slowness, impact of temporary storage files, how to eliminate the temporary files and resolving of CMOS Battery Failure. He taught to solve the IP related issues, CPU Temperature Error, Hard Drive Failure, Display Flickering, SMPS Failure, CPU Power mode problem and RAM Failure.

He concluded the session with the suggestion of what are preventive measures to be followed to manage the system. The technical faculties discussed about various systems related issues with the resource person.

## REPORT

The most promising business nowadays is coming out to be Customer Relationship Management (CRM). Its success is continuously moving forward in 2020 and becoming a favourable career among the people. To inculcate the career opportunities available in sales force and to commemorate the programmer's day **INNOVA CLUB**, Department of Information Technology organized a **Capacity Building Programme** for our young graduates conducted on 13/09/2022 at 11.00am in Dr.Mrs.Rameshwari Nallu Samy Hall. **Mr.J.Kadhar Basha, Senior software engineer, Accenture solutions** acted as a resource person. He has seven years of experience in the sales force with CRM customization environment.

The resource person gave an introduction about the sales force domain. He has given the demo about the console of the CRM customized environment. Through this console the companies can track customer activity, market to customers, and many more services. In addition the salesforce services allow businesses to use cloud technology to connect with partners, customers, and potential customers.

The speaker informed about the importance of sales force CRM certification and how to prepare for the certification. Seven important certifications are discussed. Salesforce Administrators, Salesforce Platform App Builder, Salesforce Architect. Salesforce Consultant, Salesforce Developer, Salesforce Marketing Cloud, Salesforce Pardot. To become a certified professional, the candidate must pass the **Salesforce Exam**.

The Capacity building programme makes the students be familiar about the sales force CRM customization and they also know why; Salesforce professional count is increasing day-by-day, Why Salesforce is a preferred career and how the professionals are enjoying high pay and extreme job satisfaction.

## REPORT

The main objective of the career guidance is to guide individuals to choose the right career path, based on their skills. Choosing the right option is crucial for building a satisfying and successful career for the younger generation. To assist the younger generation to take decision about their right career path the PG and Research Department of Computer Science, Department of Computer Applications, Department of Information Technology, Cauvery College Alumnae Association and Career Guidance and Placement Cell organized a Career Guidance Program on March 3<sup>rd</sup> 2023, at 1:30 PM held in Cauvery Hall.

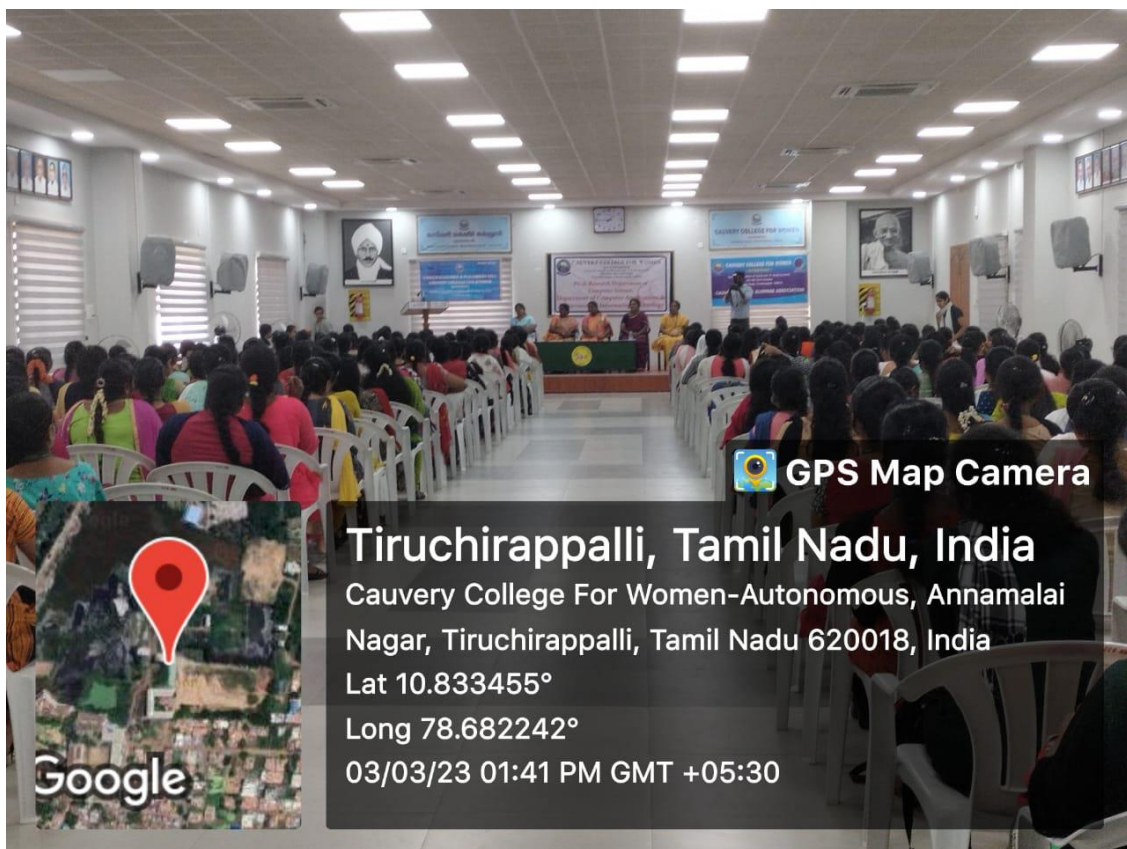

The program was presided by Dr.V.Sujatha, Principal, Cauvery College for Women (Autonomous). The meeting was co-ordinated by Dr.V.Sinthu Janita Prakash, Professor & Head, Department of Computer Science, Dr.G.Kanaga, Professor & Dean of Alumnae, Dr.M.Parveen, Professor & Head, Department of Information Technology, Dr.R.Merlin Packiam, Professor & Head, Department of Computer Applications, Ms.N.Girubagari, Associate Professor & Head In-charge of Department of Computer Science. The program was conducted with the support of faculty club in-charges Dr.P.Tamilselvi Associate Professor, Department of Information Technology, Ms.V.Infine Sinduja, Assistant Professor, Department of Computer Applications, Ms.N.Agalya, Assistant Professor Department of Computer Science and the student club in-charges.

The core part of the session is “Chase your Dreams” which is handled by our Prominent Alumnae from 1993 -1996 Batch Ms.J.Carmelete silviya, HRD Co-ordinator, Human Resource Development Centre, Holy Cross College, Trichy. The Beneficiaries are the final year students of undergraduate and post graduate of Computer Science, Computer Applications and Information Technology with 261 students. The resource person guided the student to accomplish their dreams by specifying three things: First, to love what they do. Second, to have faith in them, and third, do not pay attention of what society says about you and your dream. Loving what you do or follow would make things easier. She also encouraged the students to learn new skills such as a new language or any certification course as per their interests which will lead to personal and career development. She boosted the confidence level of the student's, by enlightening about her career obstacles. Her counselling give a hope to our students to be financially independent to lead a successful life. The session was very interactive and the students were very attentive.
