RESEARCH ADVISORY COMMITTEE

Resolution 1: Confirmation of the Minutes of the Previous Meeting held on 14.10.2024 and the Review of the Action Taken Report of the Previous Meeting

The Action Taken Report of the meeting held on 13.10.2025 and was confirmed by the members present in the meeting

Resolution 2: Strategies to Enhance Research Papers, Book Chapters, and Patent Publications

The Principal highlighted that consistent research publications and patent contributions play a vital role in enhancing the academic reputation and research visibility of the institution, and accordingly urged all faculty members to publish research papers regularly in reputed peer-reviewed and Scopus-indexed journals while actively exploring innovative research ideas that can lead to meaningful patent filings. In this regard, the Principal specifically directed that faculty members should take the initiative to involve Postgraduate (PG) students in their ongoing research activities, mentor them in identifying publishable research problems, and collaborate closely with them to co-author and publish research articles in standard, high-quality journals, thereby fostering a strong and inclusive research culture within the institution.
