**REPORT ON HANDS ON TRAINING ON CHARACTERIZATION
TOOLS AND TECHNIQUES IN SCIENCE**

Institution Innovation Council of our college jointly with Research committee, organized Capacity building programme on Hands on training on Characterization tools and Techniques in science from 13.02.2023 to 17.03.2023 in person for students from various colleges. The programme was inaugurated by Dr.V.Sujatha, IIC President, Cauvery College for women and welcomed the gathering by highlighting the importance of basic science in different disciplines. 47 Students from EVR college, Kongunadu college of Engineering, SASTRA university, Government arts and science college participated in the training program. Day 1, the participants were trained with theoretical knowledge on instrumentation of chemical analysis followed training on sonicators, thermostat, hot air oven, homogenizer and autoclave with their applications. Later the principles, instrumentation and working of UV visible spectroscopy with various samples have been practiced by the participants.

In Day 2, the techniques involved in human nutrition and food analysis were elaborated with case studies. Next, training on Lactometer, pH meter, air fryer and microscope for materials prepared from different sources and water samples. The participants were given training to test their BP, glucose value and calories with the help of BP apparatus, Glucometer and Calorimeter. Day 3, training on FTIR analysis and KBR pellet preparation was taught by Ms.Arthi, Department of Physics. Participants were given opportunity to do individually the KBR pellet. Later, the principles of spin coating and dip coating using thin film technology was discussed, followed by training on the above units were given with various samples.

In Day 4, Department of Microbiology enhanced the importance of phytochemical studies of given sample. The flavonoid, alkaloids, steroids of any material was discussed and practised with various samples. The chromatographic techniques including paper, thin film methodology and its applications were trained with various samples. In day 5, basic

terminologies in research were discussed and participants interacted actively for gaining more knowledge. Later, usage on colorimeter, agrogose gel, electrophoresis techniques were taught and usage and handling procedure of soxhlet apparatus with its applications were discussed. Feedback was collected and certificates were distributed for all the participants and the session ended with vote of thanks by Dr.R.Subha, IIC Convenor.

INSTITUTION'S INNOVATION COUNCIL

REPORT ON BOOTCAMP ON ROBOTICS

Institution Innovation Council of our college jointly with Robotian Robotics organized Capacity building programme Boot camp on Robotics on 01.03.2023 & 02.03.2023 from 10.00 am to 3.00 pm for students from various colleges.. Dr.V.Sujatha, IIC President, Cauvery College for women welcomed the gathering by highlighting the importance of innovation and startup in field of Robotics. 13 teams from colleges like Kongu engineering college, EVR government arts and science college, National college participated in boot camp along with .38 students from Department of Computer science, IT and Computer applications . The session was chaired by Mr.Mohammed Ithyoos, Founder of Robotian Robotics,Trichy shared the significance of startups in the fields of IOT, AI and Robotics in upcoming years. The camp consist of three rounds on development of business model canvas for ideas generated in the camp. The students interacted with the resource person and got suggestions in improving their protocols and funding assistance. Students of our Institution participated for gaining knowledge in building innovative ecosystem, the best ideas were recognized with Innovator, Marketer and ideator and the session ended with vote of thanks.
